Date: *14-1-2014*

The Board of CINET,

P.N.M. Wennekes
CEO | Intermediate President

The objective of the Leonardo da Vinci Life Long Learning project "E-DryClean, Sustainable dry cleaning processing" is to improve and adapt the educational level of entrepreneurs and employees working in dry cleaning sectors across the European Union by means of six training modules (best practices and working methods). These E-DryClean training modules will enable the European Dry Cleaning Industry to comply with the existing and coming directives while keeping up customer demand.
